

# We are happy to inform our neighbors that the Lake Chillisquaque spillway is being upgraded.

The Lake Chillisquaque spillway will be upgraded to slow down the flow of water and reduce the risk of erosion during significant rainfall events.

The spillway will be deepened and a protective, stepped concrete structure will be built within it. Construction is expected to last 12 to 18 months. Please visit [www.spillwayupgrade.com](http://www.spillwayupgrade.com) for more information and updates, including temporary impacts at the Montour Preserve.

# Investing in the Future of the Montour Preserve

## You are invited to an open house.

### Lake Chillisquaque Spillway Upgrade Open House

April 8, 2026

6 pm – 8 pm
